

JANE DOE

San Francisco, CA | hello@janedoe.dev | github.com/janedoe | linkedin.com/in/janedoe

Senior Full-Stack Software Engineer

Passionate full-stack developer with 5+ years of experience building scalable web applications. Specialist in React, Python, Flask, Node.js, and cloud architectures. Dedicated to clean, maintainable code and pixel-perfect user experiences.

PROFESSIONAL EXPERIENCE

Global Tech Solutions - San Francisco, CA

Lead Full-Stack Developer (2023 - Present)

- Led the development of a React dashboard that decreased page load times by 30% and increased daily active users by 15%.
- Designed and implemented robust, scalable Python Flask APIs, reducing backend latency by 200ms.
- Mentored 5 junior engineers and introduced automated testing processes, boosting coverage from 40% to 85%.

Innovate Web Labs - Austin, TX

Software Engineer (2021 - 2023)

- Developed core RESTful microservices using Node.js and PostgreSQL to handle order processing.
- Orchestrated migration to Docker containers on AWS ECS, improving infrastructure scalability and deployment efficiency.
- Collaborated closely with designers to build and deploy a responsive component library using Tailwind CSS.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Next.js, Redux, Tailwind CSS

Backend: Python, Flask, Node.js, Express, RESTful APIs, GraphQL

Databases: PostgreSQL, MongoDB, Redis, MySQL

DevOps & Tools: Git, Docker, AWS (S3, EC2, ECS), CI/CD (GitHub Actions)

EDUCATION

Bachelor of Science in Computer Science (GPA: 3.8/4.0)

University of California, Berkeley (2017 - 2021)

ACHIEVEMENTS

- Winner, Berkeley Hackathon 2020 (Best Cloud App category)

- AWS Certified Solutions Architect - Associate (2024)
